ENGINE DIAGNOSTICS

Smarter Insights
Into Critical
Maintenance
Needs

Intuitive Tools To Optimize Fleet Performance

Check engine lights are only as good as the drivers who respond to them. A warning light may go on and then off for weeks for no apparent reason, lulling the driver into complacency. Or a light bulb may be burnt out and a vehicle could be operating for weeks with a critical fault.

It's challenging to respond to every check engine light and "strange sound" from under the hood. Our GPS-enabled Fleet Intelligence solution, provides an extra, smarter set of eyes maintaining vigilance on engines and other essential vehicle functions.

Get Started Now, Risk Free

No upfront costs and all-inclusive service. Unlimited warranty, spare replacement hardware, unlimited online training and support.

Enterprise License

Unlimited users for easy scaling across government fleets. Intuitive permission sharing across organizations and fleets.

CalAmp Telematics Devices

- Fast GPS acquisition time
- Captures rich, second-by-second data
- Ultra-accurate engine diagnostics
- High-quality recording

Unwavering Security Commitment

Security is our first priority at CalAmp. We review and update our security mechanisms and processes regularly to ensure the highest level of security and privacy for our customers and partners.

Features and Benefits

Fleet monitoring is far more than GPS-powered real-time location data. It's the engine to power a smarter fleet.

Lower Maintenance Costs

- Predictive maintenance planning
- Detect engine issues in advance
- Receive engine diagnostics and alerts
- Prioritize repairs
- Maintenance scheduling and notifications

Improve Driver Safety

- Risk & safety reports
- Reduce accidents and minimize risk

Esri ArcGIS Integration & Enterprise License

- Integrate GPS tracking with premier mapping solution
- Layer fleet activity against mapping software

Customer Service Excellence

- U.S.-based customer service reps
- Recruited from the fleet industry
- Dedicated fleet advisor for each account ensures continuity of care
- Access to monthly training modules

Reduce Fuel Costs

- Improved asset utilization
- Reduce miles driven
- Reduce unnecessary idling and fuel spend
- Diminish speeding incidents

About CalAmp

CalAmp (NASDAQ: CAMP) is a telematics pioneer leading transformation in a global connected economy. We help reinvent businesses and improve lives around the globe with technology solutions that streamline complex IoT deployments and bring intelligence to the edge. Our software applications, scalable cloud services, and intelligent devices collect and assess business-critical data from mobile assets, cargo, companies, cities and people. We call this The New How, powering autonomous IoT interaction, facilitating efficient decision making, optimizing resource utilization, and improving road safety. CalAmp is headquartered in Irvine, California and has been publicly traded since 1983. LoJack is a wholly owned subsidiary of CalAmp. For more information, visit calamp.com, or LinkedIn, Twitter, YouTube or CalAmp Blog.
