

Cal/Amp®

Smarter Public Safety Fleet Tracking

Trusted Fleet Management Solutions

Many of the largest and most dynamic fleets in North America rely on CalAmp's data-driven solutions to improve safety, drive down costs and improve services.

CalAmp provides critical intelligence to help lower fuel costs, reduce maintenance, and improve asset utilization. Backed by a robust ecosystem of partner solutions and apps, CalAmp can support the needs of every level of government.

From cities and counties to universities and colleges, CalAmp has the experience to improve the way your fleet operates.

We make buying easy via one of the nation's most trusted and respected cooperative purchasing agreements. CalAmp is an official Sourcwell* partner (contract number: 022217-CAW) with a long history of supporting government customers via the Sourcwell buying platform.

Cal/Amp®

Law Enforcement Focus:

- A GPS engine redaction hides exact address of deputies, witnesses and even informants from all but a few administrative users designed at the request of a large police department to protect against invasive Public Information requests
- Lights and sirens integrations that trigger 6-second location updates during an emergency situation
- Integration with the most popular Computer Aided Dispatch systems to streamline the back-office support team's work
- Implementation management, support & training
- Web-based software with interactive dashboards and customizable reports
- ZERO upfront costs and affordable monthly investments

Get Started Now, Risk Free

No upfront costs and all-inclusive service. Unlimited warranty, spare replacement hardware, unlimited online training and support.

Enterprise License

Unlimited users for easy scaling across government fleets. Intuitive permission sharing across organizations and fleets.

CalAmp Telematics Devices

- Fast GPS acquisition time
- Captures rich, second-by-second data
- Ultra-accurate engine diagnostics
- High-quality recording

Unwavering Security Commitment

Security is our first priority at CalAmp. We review and update our security mechanisms and processes regularly to ensure the highest level of security and privacy for our customers and partners.

Features and Benefits

Fleet monitoring is far more than GPS-powered real-time location data. It's the engine to power a smarter fleet.

Lower Maintenance Costs

- Predictive maintenance planning
- Detect engine issues in advance
- Receive engine diagnostics and alerts
- Prioritize repairs
- Maintenance scheduling and notifications

Improve Driver Safety

- Risk & safety reports
- Reduce accidents and minimize risk

Esri ArcGIS Integration & Enterprise License

- Integrate GPS tracking with premier mapping solution
- Layer fleet activity against mapping software
- Better integrate with public works and other departments during emergency response situations

Customer Service Excellence

- U.S.-based customer service reps
- Recruited from the fleet industry
- Access to monthly training modules

Reduce Fuel Costs

- Improved asset utilization
- Reduce miles driven
- Reduce unnecessary idling and fuel spend
- Diminish speeding incidents

About CalAmp

CalAmp (NASDAQ: CAMP) is a telematics pioneer leading transformation in a global connected economy. We help reinvent businesses and improve lives around the globe with technology solutions that streamline complex IoT deployments and bring intelligence to the edge. Our software applications, scalable cloud services, and intelligent devices collect and assess business-critical data from mobile assets, cargo, companies, cities and people. We call this The New How, powering autonomous IoT interaction, facilitating efficient decision making, optimizing resource utilization, and improving road safety. CalAmp is headquartered in Irvine, California and has been publicly traded since 1983. LoJack is a wholly owned subsidiary of CalAmp.
